The Picture That Visited Me

Look
Imagine
See More
Be You

There is no right picture. What you see belongs to you.

Look at this purple shape.
What do you see?
It might be a creature, a place, an object,
a feeling or something completely new.
There are no wrong ideas!

Sometimes a new picture appears when we look again.

Your imagination can see what others might not.

Turn the page around if you like.
Look again.
Does another picture appear?

Let My Colors Meet

When colors meet, new possibilities can appear.

Different colors can create something new, and new can be wonderful.

Choose two colors.
Let them meet.
What happens where they touch?
Add another color if you want.
There are no wrong results!

Colors can blend, layer, overlap or surprise you.

You can mix, explore and see what happens!
